American Republic than that which beld the actions commentwealths of Greece; but, if we would except that fate, we must be warned by the belong of listory. No country—no people can long preserved bed government. When you may not easily, and noteriously corrupt and integrapy out men are preferred for executive or other effect, is to a sign that the public morals are unround, and that vice prevaits over wirths. That receive or community in which demagagesism can beldly rear its head, is in a most dangerous condition.

Rad man often use the name of party to cloak

Bad men often use the name of party to cloak their befamous designs or to promote their ecr-rupt ambition, and many simple-minded people are misled by their declarations and professions. But when the highest interests of society are conaread: when the issue is made between what is just and benerable and what is reguish and diserable, no citizen who consults his own conreisnes wid allow more party speeds to thwart the judgment or influence his vote. He is not worthy of the privileges or the name of a freeman who connot rise superior to party feeling when the good of the community in which he

issue of which is involved the welfare and good name of this city. Every right thinking man feels that party polities ought, in this centest, to be disregarded. He feels that he should labor and vote only fer the best man—that his first aim should be to prevent the election of noteriously bad men to office. But party appeals to him, and he fears this unreasoning tyrant. Why should be fear? Is not honor—is not the aproval of one's own conscience of more value han the cold and heursless recognition which party gives to its timid slaves? From our charter election party politics should be excluded, and our citizens should stand up in all their nobility as freemen to defeat fraud and corruption, and place men of known honesty and per pacity in office.

To-nay the inspectors of registry meet at the places previously designated to prepare the lists for the December election. Their first duty will be to copy the names of all who voted, in their district, at the last election, and then to add to the list the names of such persons as appear be-fere them and give satisfactory proof that they are legal voters. The registrars have no right to enter the name of any person, not on the poli-list, who does not come before them. It is said that cortain parties have prepared

lists of names to be given to the Registrars, in districts where much strictness is not anticipated and that a secret scheme has been matured in the interest of FERNANDO WOOD, to swell his vote by registering any number of Sairres and Banwars. Let the Begistrars, and citizens who desire to prevent fraud, keep a sharp look out for these parties.

P. S. After the above was written, we recolved the following note from the District Attorney, which bears directly upon the matter

## Fraude in Registration.

New-Youk, Nov. 25, 1859. 

To the Inspectors of Registry:
Information has been communicated to me, which
I ceem reliable, that a plan has been not on foot by
copiain persons, to place a large number of manual
frauducally on the Registry here, for the ensuing
election. Therefore desmit account result. frauductily on the Regerry here, for the ensuing election. I therefore deem is proper to call the attention of the Lagactors to the matter, and to urge thom to continue with great cars every name tacy passe upon the lie istry list, whether a personal application is made to them or not. It is the dary of the Inspectors to register every person thay know to be a voter; but if neutron of the Inspectors should know the purson seeking to be registered and they have no other asts fact y sharrance as to his right to be registered, it will be a measure of prudings to administer to tim the oath provided by law. If shy inspector wifely causes or parents a person to be riemally registered, the renders humself sable to imprisonment in the State Crisen for not less than one year; and it will be my duty to prosecute regorously any such case which may be brought to my accention. ### CITY NEWS.

THE WOOD RATIFICATION MEETING. - Cooper Institute was crowded last evening by the friends of FERNANDO Woor, and many were unable to gain admission to the Hall. At twenty minutes before summer to the Hall. At twenty minutes before eight o'clock, the meeting was called to order by Mr. S. P. Russel, who nominated for Casirman Hon. Assures L. Pixers. The nomination having been accepted, Mr. S. Gener read a list of Vice-Presidents. The Chairman, in taking his seat, made a few remarks on the importance to the country of the position New York took in the present contest. It was not margin allocal attention to the position New York took in the present contest. It was not merely a local struggle, it was a
national one, and New York should show horself
to be what she had ever been considered, a truly
Domecratic city. The true Democratic nost neewas FERRANDS WOOD. Tammany Hall was
rotten; it had'nd enough good men in it to
pick out a Mayor from, and they had to
select a Black Elepublican, a man who voted and gave
mency for the election of Francers. On the day of
election the Republicans were all going to vote for
HAVEMBYSH. "If he is a good enough Republican
for them to vote for, is he a good enough Democrat
for you?" (Grics of No, no.) C. H. Hazar read the HAVEMANN. "If he is a good enough Republican for them to vote for, is he a good enough Democrat for you?" (Orica of No. no.) C. M. Harm read the list of receivable. Mr. S. P. Russell. read a letter of apology from Hon. G. C. Bronson. J. Daggare Huar (formerly a Republican in the 5th Ward begar reading the resolutions, but could set be heard for catealia, whistics, and calls for Woon. The resolutions were adopted without reading, and were in substance as follows—recognizing but one Democratic-candidate for the objet maghiracy, and that one Fernance Wood, complimentary to his former administration, savegely depounding. Temmany Hall ratifying the memination of S. G. Romson for Council the Corporation, and of James Evens for Governor of the Almihouse.

As Mr. Wood was not yet present, loud calls were given for L. F. Onantyven, who responded to the call. He could with difficulty be lead at times for the yells, whistles, and cries for Wood. Me said Wood and his party had not left Tammany Hall, Tammany Hall had left them; they were the true Democracy. The speaker for some time undesword to be heard araid the hurricums of yells for "Wood," "Wood." All right he gave up in dis-

to be bestd staid the hurricune of yells for "Woon," "Woon," At 1 rigth he gave up in disgust, and Mr. Comman Bernwannams was introduced. All he could do was to go through an emphatic pantominale performance, and make a few of these nearest him understand Woon would be in in a few minutes. In a few minutes Woon care in, was elevated to a table on the front of the platform, which was instantly provided with a dense growd. He was toudly cheered.

Mr. Woon then commenced speaking. He said there were two ways of conducting a relition comment.

Mr. Woon then commerced speaking. He said there were two ways of conducting a political com-paign, by assailing the personal character of an op-position candidate, and by discussing questions of public interest. The Tammany Democracy had chosen the former—an example which he would not imitate. He would fight for principles, for great insucs. New York is a national city, national in wealth position, reliance, commercial power and resources. Its influence, therefore, is all pervading throughout it can only be done by placing a national man in the is can only be done by placing a national man in the office of the chief magietrate. This, Mr. Woon, claimed to be. The municipal government is of the greatest importance to the people. The Pederal is avercely felt, the State administration but little but every eithern is interested in the municipal government. During his administration, he had done everything he could for the good of the people, ecwas able, in opposition to the Black Republican legislation. He was willing to compare his official with not being the regular candidate of the Demo-cratic party. Tammany Hall had not nominated Democrat—they had nominated a Buck Republican; one who voted for and assisted in the election of FARMORT, who voted for Governor McBGAN, and lately for B F. MANIELER. He (WOOD) in orely wished to be elected that the people might be represented: that he might once more defend the operative and the mechanic from their oppress us, not for the offic itself, for the cares of office are great. Taxes should be decreased.

He was, he said, a man on whom the people could rely; he would make no promises for the future, but merely point to his glorious part. There sould be no doubt of his triumphant success.

At the close of his remarks he was loudly cheered.

After these subsided, confusion reigned for rome time in the ball, calls being constantly made from all parts of the room for a dezen different persons. Mr. W. WITGARTS then address d the audience in Germoo. His remarks were very brief. A Mr. G. Duven then satg a king political song, characterising Financia Wood as "a statesman

belt and good."

The hall was now emptying rapidly, and in suswer to numerous calle, Cosnan Sonwacement rs, who used to swear by Tanmany Hall, to k the floor. His remarks were prophetic of the election of "that pure Democrat, FERNANIO, WOOD." His attacks on Tummany Hall were very similar to the denunciations of Mr. Wood. There were, he said, only two good candidates in the field, Wood and OFFIRE. The latter was a good, honorable man, beid and fearless in the enunciation of his principles.

Dr. Bradroud spoke next. J. M. Hannington and several other speakers followed, and then the meeting adjourned.

During the meeting inside, one or two meetings ontside were organized, but the speakers were not of

The Western Transportation Company age. Meyer & Rec. Charics A. Marshall, Matthew May and then ry Morpan.—It is is an action involving questions of importance to desiers in and a lippus of produce. It seems that the plantiffs, in September, 1354, were the owners of 4 000 bushels of wheat, which tray had sutherized their brokers, Tuttle, Cutting & Co., to regotiate for so c in the market, for c-sh on delivery. The brekers randem agreement with they're A flee to sell the whi at tythem for cash on delivery. The brekers randem agreement with they're, in pursuance of which the property was delivered on board the ship Great Western, then lying at the port, and destined on a varage to Liverpool. The plantiffs insist and clasts that the delivery was made on their own necount, and in their own name, in order that they might yot put with the title until the preparty was pead for, and that the delivery shances was conditional.

After the property had been delivered, or while it was in process of delivery, Meyer & Roe induced the master of its ship to execute to them, as shippers and owners, bills of lasting for the wheat, especially the deliver it to that order in Iterpool. They this negociated this bill of lasting for the wheat, especially the deliver it to their order in Iterpool. They have negociated the bill of lasting for the wheat, especially the deliver it to their order in Iterpool. They have negociated their bill of lasting to the defendants if x-gam, as collatoral security for a draft, drawn by them on Washing articgue & Go., of Loudon, and which was discounted by the Morpassa.

WOOD IS THE "JOHN PROWN" of our city, without any of that wretched madman's honesty of purpose,
He has about as much chance of success tir his infamous designs against this city as John Brown had of
establishing a permanent Provisional Government at
Harper's Ferry, to supp'ent Jesses Buchnan and the
regular government of the United States. Wood has
declared an "irrepressible consiste" with the Bemoeracy, and he touse get the worst of it The great
Democratic party marches onward, regardless of his
ungrateful and treaches ous hatred. Such outside
clamor as Wood can raise is only the buaring of a fly
who will be crushed beneath the wheels.

ALL THE CORBUPT POLITICIANS of New York have banded together, placing Wood at their head, under a pretence of wishing to humble the Democratic party, but reality with a view to benefit themselvee by the election of a confederate, and to defeat our tried, the election of a confederate, and to defeat our tried, true, and ever faithful friend. Wim. P. Havemeyer. In this attempt Wood will meet with the kind of success which rewarded Benedict Arnold when he tried to be tray the army of Washington into the hands of the British commander. Arnold wanted to be chief, and so does Wood. Arnold turned traitorto rufn where he could not rufe, and this is exactly the course which Wood is now attempting to follow. Times are altered, however, and this Wood will learn to his one this day week.

this day week. WOOD HAS MADE A BARGAIN with the State Republicans and know Nothings, to adopt Solamon L.
